Marie Skłodowska-Curie Individual Fellowships (MSCA-IF)

To recruit an excellent Post-Doc researcher, apply for a MSCA Fellowship in 2016!

Why?

- The University of Vienna has an excellent success rate for MSCA Individual Fellowships (10% higher than the average success rate for the last two years).
- Funded by the European Commission, MSCA Fellowships offer you the opportunity to employ top Post-Doc researchers from inside and outside of Europe.
- MSCA Fellowships enrich the future research careers of successful applicants, often initiating further independent research development, and enlarging the international network of the host.
- In addition to funding the fellow's salary, the fellowship offers superb mobility and family support allowances. The hosting faculty also receives additional funds to support training and research activities.
- Dedicated pre-award support from the University of Vienna Research Services and Career Development Office. We offer full proposal checks and advice throughout the submission process.

How?

Start by identifying an excellent Post-doc candidate and begin consolidating your research and postdoctoral training idea with them.

Next, register in the European Commission's Participant Portal where you will also find the Guide for Applicants for this call.

Contact us directly at the Research Services and Career Development Office for helpful advice and information:

Amy Radlberger (amy.radlberger@univie.ac.at) or
Alena Morrison (alena.morrison@univie.ac.at).

Come to us as early as possible to take advantage of our full proposal check service!
