1. Did you update your employee web page at UIB?

2. Do you have an ORCID-profile?

3. Do you have other academic profiles?

4. What is your h-index? Do you know where you can find it?

5. For your publication with the largest impact, give:
   - Year of publication:
   - Subject area:
   - Access (Open Access or subscription):
   - Number of citations:
The Profile Doctors

Why should you use academic network sites?

- Avoid author ambiguity
- Have one place to store all your scientific work
- Make your work visible and accessible
- Create a network and follow your peers
- Have one place you can refer to when writing proposals
- Get recommendations about new publications directly
- Get instant credits for your publications

Wondering which service you should choose? Check out where researchers within your research field are mostly staying, and choose accordingly.

The Profile Doctors

1. Check your profile at:

2. Create a profile at:

3. Link your profile to:

4. Ask for a consultation with:

Date:
Profile Doctor at the University of Bergen
Library:
Brilliant - you have profiles in the citation databases! That means that I can see all your publications, and not just the ones published in Norway. Also interesting to check out your co-authors, h-index etc. Now I know a lot about you.
So how did it go?
FUN FUN FUN!!!!
How and where did/can we use it?

UiB ‘digital day’ digital myldredag
Horizon2020 Kickoff
Research days at faculties
PhD days

.....
Just do it and have fun!

Thank you!
